

how to apply for financial aid

Complete and submit your free application at www.FAFSA.ed.gov for federal student aid.

Gather the following information before you apply:

- Your Social Security number and your parents' Social Security numbers if you are providing parent information.
- Your driver's license number if you have one.
- Your Alien Registration Number (green card) or a permanent residence card if you are not a U.S. citizen.

Please wait 3 business days and contact the financial aid department to finalize your financial aid.

You can contact the Federal Government at 800-433-3243 for help with your application or contact the FMTC Financial Aid Department at 239-334-4544.

Tips to Complete your Application

Before you complete your FAFSA application, you need to have filed your tax return. You will need to wait up to two weeks for the IRS income information to be available for electronic IRS tax return filers and up to eight weeks for paper IRS tax return filers.

The IRS Data Retrieval Tool on your application is the best and easiest way to provide accurate tax information. Use it to transfer your IRS income information into your FAFSA. If you are married, your spouse's information must also be transferred.

If you are unable or choose not to use the IRS Data Retrieval Tool in FAFSA and your application is selected for verification, you will need to submit an **IRS tax return transcript** to the school, not photocopies of the income tax return. *To obtain an IRS tax return transcript, go to www.IRS.gov and under Tools click on the "Get Transcript of your Tax Records" link, click on the "Get Transcript Online" link, fill out request, or call 800-829-1040.* Make sure to request the "IRS tax return transcript," not the "IRS tax account transcript." You will need your Social Security number, date of birth, and your address on file with the IRS.

If you are married and you and your spouse filed separate tax returns, you will not be allowed to use the Data Retrieval Tool. You must submit an IRS tax return transcript for both you and your spouse.

If you get federal student aid based on incorrect information, you will have to pay it back. You may also have to pay fines and fees.

Student Aid Eligibility

- Have a high school diploma or a GED.
- Be working toward a certificate in an eligible program.
- Be a U.S. citizen or eligible noncitizen.
- Have a valid Social Security number.
- Register with the Selective Service if required.
- Maintain satisfactory academic progress once in school.
- Certify that you are not in default on a federal student loan and do not owe money on a federal student grant.
- Certify that you will use federal student aid only for educational purposes.

Even if you are ineligible for federal aid, you should complete the FAFSA because you may be eligible for nonfederal aid from state and private institutions.

If you are convicted of a drug-related offense while receiving Financial Aid, you might lose eligibility for federal student aid, and you might be liable for returning any financial aid you received during a period of ineligibility.
