If you want to serve your community as a first responder, the Southwest Florida Public Service Academy is a place to consider receiving the training. The academy is comprised of four basic recruit training courses. The academy's main campus sits on 20 acres and has 13 buildings. There is also 7 satellite sites that are under the authority of the academy where training is conducted with our area law enforcement agencies and basic recruit classes throughout Southwest Florida.

As we prepare those students for a career in public safety, it is our goal to ensure each student receives the best training available and is successful in finding a career in their field of study.

At the Southwest Florida Public Service Academy, we are proud to serve each of our public safety partners and provide the training needed at the basic recruit level and the continuing advanced & specialized training needs.

Thank you again and if you have any questions, please do not hesitate to let us know.
