

Why Choose SWFPFA for Your Paramedic Course?

✓ NREMT Testing Approval

Our program maintains a current **CoAEMSP Letter of Review (LOR)**, allowing graduates to sit for the **National Registry of Emergency Medical Technicians (NREMT) Paramedic exam**. Students also test **on-site**, in a familiar setting.

✓ No Prerequisite College Courses

Start your paramedic education without completing separate general education classes.

✓ Advanced Content Embedded in the Program

All required advanced academic material—including anatomy, physiology, and critical medical concepts—is built directly into the **1,100-hour curriculum**, eliminating the need for outside AP coursework.

✓ Shift-Friendly Schedule

Designed with working professionals in mind, our schedule supports:

- 24-hour shift personnel
- Actively employed EMTs and firefighters
- Busy public safety professionals

✓ Priority Enrollment Opportunities

Enrollment preference may be extended to:

- SWFPFA alumni
- Currently employed first responders
- Veterans

✓ Small Class Sizes

Lower student-to-instructor ratios allow for:

- Personalized instruction
- Increased hands-on skill development
- Strong mentorship and accountability

✓ Public Safety Academy Environment

Train alongside fire and EMS professionals in a disciplined, career-focused setting that emphasizes professionalism, teamwork, and operational readiness
